## Groundbreaking ceremony at Mosdorfer in Weiz

At the company Mosdorfer GmbH in Weiz the groundbreaking ceremony for the reconstruction of the production and storage halls took place. Over the next 15 months, the company will invest in the renovation of its production halls, the raw material warehouse and in the acquisition of new machines and presses.

The selection of the new machines was already made in February 2021. With 08.06.2021 the start of the rebuilding of the production halls was initiated. A total of 3 production halls, which date back to 1970, will be renovated and partially raised to make room for the new machines. The whole project is managed by the company Vatter and executed by the company PORR AG as construction manager.

Initially, the demolition of the roof and floor of the first two halls will be started. This demolition process that has already been started will be done by the company Demolit Abbruch GmbH followed by the reconstruction of the roof and all tinsmith works which will be done by the company Silver Star Stahlbau GmbH. After the renovation of these two halls, the third hall will be rebuilt, the warehouse will be roofed and new docking stations for trucks will be created.

The entire project is scheduled for completion in September 2022 and will contribute to securing jobs at the Weiz site in the long term.
